

## 9 Advantages of Leasing Vehicles for Schools from Ewald Fleet Solutions

School districts have the most to benefit from considering alternatives to their current student transportation needs. Oftentimes, schools fall back to renting busses even if they only have a small group traveling.

Leasing vehicles for your school's small club sports and groups, handicap transportation, food service, and maintenance and grounds, can provide you with considerable cost savings. An analysis should be performed to determine if leasing is an alternative transportation method that could save you considerable money.

### Advantages of leasing vehicles for your school:

- » Lease payments can be budgeted, and are easier to accept than the large capital expense of purchasing a vehicle.
- » Wisconsin State Bid pricing is still available when leasing your vehicles
- » Avoid the higher cost of renting a bus when only transporting a small group of students
- » Leases can be written for passenger vans, handicap vans, cargo vans, and trucks.
- » Vehicle replacements are planned, and help ensure that maintenance costs are kept to a minimum

### Advantages of leasing vehicles for your school from Ewald Fleet Solutions:

- » Ewald can provide you State Bid Pricing
